**PVC
COLOR FILM**
A widely used and practical decorative
material currently widely used for PVC
floors and wall panels.

CHINA

JIANGSU WINNER

FOSHAN XIXIAN BUILDING MATERIAL CO.,LTD.

The display board features a grid of color film samples. The top row includes six color swatches (blue, yellow, orange, red, green, purple) and three patterned samples (leaf, black and white geometric, blue and white geometric). The middle section contains several rows of color swatches in various shades of blue, yellow, and red. The bottom section shows more patterned samples, including a black and white geometric pattern, a black and white geometric pattern, and a grey and white geometric pattern. The board is mounted on a white wall and is part of a larger exhibition stand.

CDP

Why should I buy Bamboo Products?

- Strength: Comparable with Hardwoods
- Beauty: Clean and Modern Appearance
- Durability: Resistant to Moisture and Insects
- Sustainability: Renewable Resource
- Eco-Friendly: Low Carbon Footprint

Bamboo VS. Other Wood Floors

Advantages of Bamboo Flooring:

- Harder than most hardwoods
- More resistant to scratches and stains
- Eco-friendly and sustainable

Interesting Fact!

Bamboo is a grass, not a tree. It grows back faster than any other natural material.
